

## Product Name: Vinyl Acetate

---

### Product Summary

Vinyl acetate is a clear, colorless liquid used as a raw material for organic synthesis and for PVA, emulsions, and paints.

Taking advantage of Japan's largest production capacity, we not only sell domestically but internationally as well.

---

### Physical Properties

Appearance	Clear and colorless liquid
Odor	Sweet scent, slightly irritating odor
Density	0.932g/cm <sup>3</sup> (20°C)
Boiling point	72°C
Melting point	-100.2°C
Vapor pressure	11.3 kPa (20°C)

\*The above figures are representative values and not guaranteed.

\*Please contact us directly for sales standards and safety data sheets.

---

### Type of Packing

Vessel	Please contact us.
ISO container	Please contact us.
Tank lorry	Please contact us.
Drum	190kg

---
